

**Right-sized Living with Open, Everyday Comfort**

**The Adams is designed for buyers who want the ease of single-level living with a smart, efficient layout that maximizes every square foot. A wide, full-length front porch creates a welcoming presence and usable outdoor living—perfect for morning coffee, evening conversations, and neighborhood connection.**

Inside, the home opens to a vaulted great room that immediately feels spacious and bright. The open layout eliminates underused formal areas, focusing instead on comfortable, connected living. Clear sightlines between the great room, kitchen, and dining area make the home feel larger than its footprint while supporting daily routines, entertaining, and relaxed gatherings.

The kitchen is positioned for efficiency, featuring a functional work zone, central island, and convenient access

to the garage for easy unloading. The adjacent dining area is defined enough for a full-size table yet remains open to the main living space—ideal for everything from everyday meals to hosting family and friends.

A split-bedroom layout enhances privacy and flexibility. The primary suite is thoughtfully separated, offering a quiet retreat with a spacious bath and walk-in closet. On the opposite side of the home, two additional bedrooms and a shared bath provide space for guests, visiting family, or a dedicated office or hobby room.

With its vaulted ceilings, open-concept design, and efficient single-level layout, the Adams delivers the benefits today’s homeowners value most: low-maintenance living, practical flow, and comfortable spaces that feel bright, open, and easy to enjoy every day.
