

Two Levels Designed for Everyday Ease

The Justice offers the space of a two-story home while keeping everyday living comfortably on the main floor. A covered front porch leads into the entry, where a study just off to the side creates a quiet place for working, reading, or managing daily tasks. From there, the home opens into the great room, where rear windows and an optional fireplace draw your attention toward the covered patio and outdoor living beyond.

The kitchen and dining area connect naturally to the great room, forming an open living space that's easy to move through and enjoy. A long island anchors the kitchen, keeping cooking and conversation connected, whether someone is relaxing in the great room or gathering around the table. The dining area's direct access to the covered patio makes outdoor meals and morning coffee simple, while the nearby pantry,

laundry, and garage entry help keep daily routines organized and efficient. The primary suite is conveniently located on the main level, tucked toward the back of the home for added privacy. With a spacious bedroom, walk-in closet, and well-appointed bath, it provides a comfortable retreat that's still just steps from the home's central living areas.

Upstairs is designed for guests, hobbies, and extra flexibility. Two additional bedrooms share a full bath and open to a comfortable sitting area that works well as a TV lounge or play space for visiting family. A large bonus room adds even more versatility—perfect for hobbies, exercise, or extended guest stays—while the main floor continues to support easy, single-level living day to day.
