

Comfortable Living with Everyday Functionality

The Liberty is designed for homeowners who value a layout that feels intuitive, efficient, and easy to live in. A covered front porch offers a welcoming first impression and leads into a clear, well-organized entry that transitions naturally into the main living spaces.

At the center of the home, the spacious great room anchors daily life, connecting seamlessly to the dining area and covered patio for easy indoor-outdoor living. The kitchen is strategically located near the garage entry and laundry area, allowing groceries and daily essentials to move directly from the two-

car garage into the kitchen with ease.

Bedrooms 2 and 3 are positioned together with a shared bath—ideal for guests, a home office, or flexible hobby space—while the primary suite is privately situated at the rear of the home. Complete with a walk-in closet and well-appointed bath, it offers a quiet retreat separate from the secondary bedrooms.

With its open living areas, smart bedroom separation, and efficient single-level design, the Liberty delivers the comfort, convenience, and adaptable spaces today's buyers value most.
