

Organized Living with Space to Focus and Relax

The Madison is thoughtfully designed to support a calm, organized lifestyle. Just off the entry, a dedicated study provides a quiet, flexible space for working from home, managing household tasks, or simply enjoying a place to relax and unwind.

As you move into the heart of the home, the layout opens to a spacious great room connected seamlessly to the kitchen and dining area. The island faces the living space, making it easy to cook, gather, and stay connected, while an optional fireplace adds warmth and character. A walk-in pantry keeps everyday essentials neatly organized, and direct access to the backyard encourages effortless indoor-outdoor living.

Two secondary bedrooms and a shared bath are positioned toward the front of the home, creating a comfortable area for guests, hobbies, or visiting family. The two-car garage connects through the laundry room, providing a practical transition space that helps contain coats, shoes, and everyday gear.

Privately situated at the rear, the primary suite offers a peaceful retreat with a spacious bedroom, walk-in closet, and dual-sink bath. Designed for single-level convenience and smart separation of spaces, the Madison balances openness with privacy—ideal for both quiet evenings and hosting friends and family.
