

Comfortable, Right-Sized Living with Smart Separation

The Patriot is designed to keep daily routines organized and entertaining effortless. A full-width covered front porch welcomes you home and opens into a defined foyer that creates a comfortable sense of arrival before entering the main living spaces. Just off the entry, a front bedroom provides flexible space for a home office, hobby room, or convenient guest suite.

At the heart of the home, the great room opens to the kitchen and dining area in one cohesive living space. An optional fireplace anchors the room, while the angled island keeps the cook connected to conversation without crowding the workspace. A nearby pantry keeps essentials neatly stored, and the dining area's access to the covered patio makes

indoor- outdoor meals and gatherings simple and natural.

Along one side of the home, a secondary bedroom, shared bath, and laundry connect to the oversized two-car garage. This everyday entry creates a practical transition area for coats, shoes, and gear—helping maintain a calm, uncluttered feel in the main living spaces.

Privately positioned at the opposite end, the primary suite offers a peaceful retreat with a spacious bedroom, walk-in closet, and dual-sink bath. Thoughtful separation between guest rooms and the primary suite allows homeowners to comfortably host visitors while still enjoying privacy and quiet at the end of the day.
