## Smart Design with Everything in Its Place

The Revolution is designed around a clear, comfortable flow that makes everyday living feel intuitive. A covered front porch leads into a welcoming foyer, where a dedicated study offers flexible space for working from home, reading, or hobbies. Nearby, a secondary bedroom with convenient access to a full bath creates a comfortable option for guests or visiting family.

Across the back of the home, the kitchen, dining area, and great room form one expansive, open-concept living space. A generous island faces the great room, keeping the cook connected to conversation and the optional fireplace. The dining area opens directly to the covered patio, supporting seamless indoor-outdoor living for meals, entertaining, or

relaxed evenings outside.

Privately positioned on the opposite side of the layout, the primary suite provides a quiet retreat with a walk-in closet and dual-sink bath. A third bedroom and additional bath nearby offer flexibility for guests or a second office space, allowing the home to adapt as needs change.

Entry from the two-car garage flows through a practical transition area and laundry room, helping contain coats, shoes, and daily essentials. With thoughtful separation of spaces and an open central living area, the Revolution delivers the balance of comfort, function, and simplicity today's homeowners value most.
