

Flexible Living with Space to Grow

The Taft 2 is designed to keep everyday life organized while offering extra room for work, guests, and hobbies. A long covered front porch sets a welcoming tone and leads into a defined entry, where a front study provides a quiet place for a home office, reading, or creative projects separate from the main living areas.

At the heart of the home, the kitchen, great room, and breakfast nook come together in one comfortable, open gathering space. The island faces the great room, allowing whoever is cooking to stay part of the conversation near the optional fireplace. The breakfast nook sits along the back of the home with views of the covered patio, creating an easy transition for casual outdoor meals or relaxed mornings outside.

Two additional bedrooms are grouped together with a full bath nearby, creating a comfortable space for visiting family, hobbies, or flexible guest accommodations. Laundry and a convenient half bath are also close by, supporting daily routines without interrupting the home's central living spaces.

The primary suite is located on the opposite side of the layout, offering a quiet and private place to recharge with a spacious bedroom, walk-in closet, and dual-sink bath. Above the garage, a large bonus room adds even more versatility—ideal for a media room, hobby studio, or additional guest space that can evolve as your needs change.
