

You will love to come home to our most popular plan.

It's no surprise that the Lincoln is our most popular plan. Near the entrance is a windowed study or 4th bedroom. The kitchen, great room and dining area share an airy, open design complimented by striking vaulted ceilings. The kitchen features a walk in pantry and impressive island with a built in sink, plenty of counter space and cabinet space below. The generous master bedroom is separated by a split room design and features a large two-sink bathroom and walk in closet.
