

## Live comfortably in and outside of your home.

The great room of this home showcases tall vaulted ceilings and commanding 250° views from 6 tall windows. The entertainer's kitchen connects the open design of the great room and dining area with a distinctly shaped island and bar. The large master suite is complimented by a spacious bathroom and equally roomy walk in closet. Outside, three covered patios provide flexibility for relaxing and entertaining. If entering from the garage, you can remove your shoes while resting on the built-in bench in the laundry/mud room.
