

# Roosevelt 2

2779 sq. ft. | 3 Bedroom | 2.5 Bath | + Study and Bonus Room

## Live abundantly in the spacious Roosevelt 2.

Like the Roosevelt 1, the design of this expansive home features a split guest wing that separates the study and guest rooms from the master suite. This plan also features a grand upstairs bonus room for extra space to spread out. The large great room, vaulted ceilings and an open design with the kitchen and dining area make this home feel light and bright. Tall view windows bring in an abundance of natural light. The large master suite is complimented by a spacious bathroom and equally roomy walk in closet. The double garage features a shop area for your workspace, toys or both.
