

## An abundance of light and living space.

The design of this spacious home features a split guest wing that separates the study and guest rooms from the master suite. It features an expansive great room, vaulted ceilings and an open design with the kitchen and dining area. Tall view windows bring in an abundance of natural light. The large master suite is complimented by a spacious bathroom and equally roomy walk in closet. The double garage features a shop area for your workspace, toys or both.
